Aging and Disability Resource Connections (ADRC)

The ADRC is a no wrong door through which individuals regardless of age, disability, income or resources can access public and private long term services and supports to remain living at home and in their local communities.

Call the following Aging and Disability Resource Connections (ADRC) Call Centers for information, referral and assistance:

- Rapid City: 1.855.315.1986
- Pierre: 1.855.642.3055
- Watertown: 1.855.315.1987
- Sioux Falls: 1.877.660.0301
Options Planning

Options planning is a free service offered when you call an ADRC Call Center. Information and decision support is provided to individuals and family members in helping to identify available long term services and supports.

Options Planning provides education and knowledge to plan for tomorrow on how to meet long term care needs at home and in the community.

When people are able to make informed decisions, they are likely to be more satisfied with their quality of life.
Long Term Services and Supports

Through ADRC Call Centers, trained Long Term Services and Supports (LTSS) Specialists, located in offices across the state, provide assistance to help individuals remain living at home longer and prevent or delay premature or inappropriate institutionalization in a nursing facility.

Objective information and assistance is available over the telephone, at a local office, at a person’s home or in the community.

LTSS provides or purchases services for individuals 60 years of age and older and individuals age 18 and older who have a disability. An assessment of the individual’s strengths and needs is completed to help determine the type and kind of assistance a person wants and needs to remain living at home or in their community.
LTSS Eligibility

Program Service Eligibility

To be eligible for most services through Long Term Services and Supports, an individual must meet the following criteria:

- A South Dakota resident and either a U.S. citizen or a legal alien;
- At least 18 years of age with a disability or 60 years of age and older with a chronic health condition;
- In need of long term home and community-based services and supports in order to remain living at home or in a community setting; or
- Is blind, has a permanent physical disability that severely restricts mobility, or has a chronic health condition that severely restricts mobility; and
- Is not eligible for other programs that provide the same or like services.

Financial Eligibility

A household’s resources for some services may not exceed $40,000 for a single individual and $45,000 for a married couple. Countable income is the final income amount after out-of-pocket medical deductions and extraordinary financial adjustments are deducted.

Individuals applying for program services may be asked to complete a resource and income form to determine financial eligibility and whether the individual will share towards the monthly cost of their services.
In-home services provide needed help for an individual to remain living at home or return home. These services may consist of household tasks that have become difficult to complete or which an individual is unable to manage alone.

Homemaker Services

Homemaker services are available to an individual who needs assistance with one or more of the following routine household tasks:
- Light housekeeping (dusting, cleaning, vacuuming)
- Light meal preparation
- Grocery shopping
- Laundry

Personal Care Services

Personal care is provided to an individual who is unable to complete personal care tasks independently and needs the help of another person to perform one or more of the following activities of daily living:
- Bathing
- Dressing
- Personal hygiene
- Eating
- Toileting
Nursing Services

Nursing services are available to an individual living at home who has physical or chronic health problems and needs one or more of the following nursing tasks provided by a Licensed Nurse:

- Monitoring, setting up and dispensing medications
- Giving injection(s)
- Providing foot and nail care
- Drawing blood
- Wound care
- Catheter care
- Nutritional assessment
- Physical health assessment
- Monitoring and screening of health status
- Consulting with physician and pharmacist
- Health education
Medical Supplies and Equipment

Medical supplies and medical equipment are provided to an individual who has a need based on a disability or diagnosed medical condition to continue to live safely and independently at home.

Medical supplies may include the following: disposable incontinence, diabetic and wound care supplies, e.g., disposable pads/briefs, bed pads, urostomy, colostomy, ostomy supplies, diabetic test strips, syringes, and bandages.

Medical equipment may include: rental of a hospital bed, wheelchair, or a medication administration device, e.g., CompuMed and MedReady.

Assistive Devices

An assistive device is a tool, device or equipment that enables an individual to perform routine tasks. The use of assistive devices can enhance an individual’s self-sufficiency, mobility and ability to complete activities of daily living. The use of an assistive device may help avoid injury by providing a safer and a more secure home environment.

An individual uses an assistive device to complete one or more of the following activities of daily living:

- Walking/Mobility
- Bathing
- Eating
- Dressing
- Transferring
- Toileting
Assistive devices that may be provided include but are not limited to the following:

- Bathroom and household items for accessibility and safety purposes, i.e. grab bars, toilet riser, shower chair.
- Items to improve mobility which may include batteries for wheelchairs/scooters, lift chair, etc. (excludes hearing aid batteries).
- Repairs needed for existing assistive devices.

Services not provided under assistive devices include:

- Cost of installation of the device into an individual’s home.
- Devices available through other state or federal programs.
- Delivery fees associated with getting devices to an individual’s home.

**Emergency Response System**

An Emergency response system (ERS) is an electronic device which, when triggered, initiates a call for help. The purpose of the emergency response system is to provide a 24 hour safeguard for an individual who has a significant risk for falls. ERS devices come with pendants for remote access to call previously programmed numbers in case of an emergency.

An emergency response system may be needed when an individual lives alone and has a history of falls or impaired physical mobility (with or without the use of an assistive device). Emergency response systems can be used whether an individual has a land line or cell phone.
Nutritional Supplements

Nutritional supplements may be provided to an individual who lives at home and whose physician has determined the person is nutritionally deficient or malnourished; or needs a nutritional supplement to manage a skin condition or promote wound healing.

Nutritious Senior Meals

Senior meals is a nutrition program offered by either a nonprofit organization or a tribal agency. Meals are offered within a congregate dining setting, or can be delivered to an individual who is unable to leave their home.

Senior Meals offer:

- Hot, nutritious meals meeting one-third of an individual’s dietary needs.
- Delicious meals offering a variety of food for a suggested donation.
- A social opportunity to meet others.

To make a reservation for senior meals in your community contact a local senior meal site.

Caregiver Program

The South Dakota Caregiver program provides services, supports and training to family members and friends who assist an individual with activities of daily living.

A caregiver is a family member or friend who is an informal, unpaid care provider to an individual who meets program eligibility. Eligible individuals include an individual 60 years of age and older or an individual who has a chronic condition, a physical disability, Alzheimer’s Disease, or a related condition.

Services available through the caregiver program include:
- Information and assistance
- Case management
- Training and counseling for the caregiver
- Homemaker services
- Nursing services
- Respite care
- Supplemental services

A caregiver assessment is completed to identify the caregiver’s need for services, supports and community resources.
Respite Care

Respite care offers the primary caregiver temporary relief from providing continuous support and care to an older adult or an adult with disabilities.

Covered services may include:
- Companionship
- Involvement in the person’s activities of daily living
- Meal preparation
- Light housekeeping
- Personal hygiene tasks

Respite care does not include skilled nursing services and the administration of medications.

Eligibility for respite care is determined based on a caregiver assessment. The frequency of respite care requested by the primary caregiver and care receiver are a mutually agreed upon arrangement with a respite care provider. Overnight, weekend care, vacation time and emergency periods are examples when respite care might be needed.

The primary caregiver has the responsibility to identify and select a respite care provider. A respite care provider may be a neighbor, family member or friend who has agreed to provide care to the care receiver. However, a respite care provider cannot live with or be considered the care receiver’s primary caregiver. A respite care provider can also be an agency that offers respite care.
Adult Protective Services

Adult Protective Services provide assistance to individuals living in the community who are at risk of abuse, neglect, financial exploitation, or self-neglect.

Physical and Emotional Abuse
Abuse is physical harm, bodily injury or attempt to cause physical harm or injury, or the infliction of fear of imminent physical or bodily injury on an elder or an adult with a disability. Emotional abuse includes a caretaker’s willful, malicious and repeated infliction of sexually obscene acts without consent; unreasonable confinement; damage or destruction of property; or verbal harassment or threats.

Neglect
Neglect is harm to the health or welfare of an elder or an adult with a disability, without reasonable medical justification, caused by a caretaker, within the means available for the elder or an adult with a disability, including the failure to provide adequate food, clothing, shelter, or medical care.

Exploitation
Exploitation is the wrongful taking or exercising of control over property of an elder or an adult with a disability with intent to defraud the elder or adult with a disability.

Reporting Abuse, Neglect and Exploitation
Please contact a local law enforcement agency, local state’s attorney or a local Long Term Services and Supports office located near you. Refer to the list of local LTSS offices beginning on page 24 of this booklet.
Legal Services

Long Term Services and Supports has a contract with two legal service programs (East River Legal Services and Dakota Plains Legal Services) to provide legal assistance, counseling and advice to an eligible individual.

Eligibility
- An individual 60 years of age and older
- Legal issues must be recognized as a priority

The types of assistance include the following:
- Appeals
- Advance directive
- Advocacy at administrative hearings
- Age discrimination
- Consumer issues
- Determining rights to public benefits
- Guardianship
- Insurance explanations
- Landlord disputes and evictions
- Litigations
- Negotiations
- Wills

Legal services programs cannot accept fee generating cases and do not handle criminal cases.

**East River Legal Services**

PO Box 727  
Mission, SD 57555  
605.856.4444  
1.800.658.2297
Transportation

Individuals 60 years of age and older may ride transit systems for a suggested donation.

Long Term Services and Supports does not directly provide transportation services, but instead awards state and federal funds to local transit systems.

Transportation services are provided through and by nonprofit organizations or local government agencies. Transportation is provided in buses or vans (some equipped with wheelchair lifts).

Services provided include transportation to and from:

- Medical providers and facilities
- Shopping and banking
- Senior center activities
- Senior meal sites
- Adult day services
- Other essential errands

Adult Day Services

Adult day services help an individual to remain living at home for as long as possible by providing structured activities, care and supervision for part of a day outside of the home. This service enables the primary caregiver to work or pursue other daytime activities while continuing to care for the care receiver at home.

Adult day services offer activities during the day and a nutritious meal at lunch. Limited nursing services such as health screening, blood pressure checks, medication management and a general assessment of an individual's needs may also be provided.

Adult day locations

Adult day services can be located within a senior center, an assisted living, a nursing facility or as a separate program.

Contact a Long Term Services and Supports office for a list of adult day services programs in your area.
HOPE Waiver, Home and Community-Based Services (HCBS)

Services available through the Home and Community-Based Options and Person Centered Excellence (HOPE) Waiver are intended to reduce unnecessary nursing facility placement by assisting an individual to remain living at home or in their community as long as they remain safe and choose to continue to live at home. A wide range of services are available with the goal of meeting an individual’s needs.

To be eligible for services through the HOPE waiver an individual must meet the following criteria:

- Be age 65 and older or age 18 and older with a qualifying disability
- Meet financial eligibility
- Meet nursing facility level of care
- Have an ongoing need for at least one waiver service each month.

Individuals who meet the above waiver eligibility criteria may receive the following services:

- Homemaker services (page 6)
- Personal care services (page 6)
- Nursing services (page 7)
- Medical supplies (page 8)
- Medical equipment – includes assistive devices (page 8)
- Emergency response system (page 9)
- Nutritional supplements (page 10)
- Meals (page 10)
- Respite care (page 13)
- Adult day services (page 18)
- Assisted living (page 21)
HOPE Waiver, Home and Community-Based Services (HCBS)

The following services are only available to individuals through the HOPE HCBS Waiver:

**Adult Companion Services**
Non-medical care, assistance, supervision or socialization provided to an individual who lives at home or in an assisted living.

**Environmental Accessibility Adaptations**
Physical adaptations to the private residence of an individual, or the individual’s family that are necessary to ensure the health, welfare, and safety of the person or that enable the person to function with greater independence in the home. Adaptations may include the installation of ramps and grab-bars, widening of doorways, modification of bathroom facilities, or the installation of specialized electric or plumbing systems that are necessary to accommodate the medical equipment and supplies that are necessary for the welfare of the person.

**Chore Services**
Services that are needed to maintain an individual’s home in a healthy and safe environment. Chore services may include lawn mowing, snow and ice removal from sidewalks and driveways, or other services which the home owner is required to complete by city or county ordinance.
Assisted Living

An assisted living center is a residential alternative promoting independence for an individual who has minimal needs by providing a combination of supportive services and assistance with activities of daily living: eating, dressing, bathing and personal hygiene. Assisted living services include 24 hour staffing, three meals a day, housekeeping, laundry services and supervision to self-administer medications.

Nursing Facility

Nursing facilities provide 24-hour long term care to an individual who is no longer able to care for themselves due to chronic health conditions, illness, or disability.

Services are provided by trained professionals and may be necessary for short term rehabilitation or long term care. These services include but are not limited to: intravenous medication administration, wound care and physical and occupational therapy.

Long term care may be provided temporarily during recovery from a disabling injury or illness or may be provided for people who lose their ability to function independently.
Ombudsman Program

The long term care ombudsman program advocates for and protects the rights of residents living in nursing facilities and assisted living centers.

A local long term care ombudsman serves as an advocate for residents and seeks to resolve complaints on their behalf. The program provides educational activities to increase community awareness of resident rights, rights training and education to staff. All reports and inquiries to the ombudsman program are confidential.

Long term care ombudsman services are funded by the Administration for Community Living and are provided at no cost to the resident, nursing facility or assisted living center.

Senior Health Information and Insurance Education (SHIINE) is a federally funded program that provides free, confidential, and unbiased information to Medicare beneficiaries in South Dakota. SHIINE is carried out by trained volunteers across the state who educate individuals about Medicare and how to protect their benefits and avoid fraud.

For more information, contact a SHIINE regional office listed below. You can also visit www.shiine.net for assistance.
