

As We Get Older...

Our eating habits change as we age and we need to make small adjustments to enjoy the foods and beverages we need to live a healthy lifestyle.

- ◆ Add flavor to foods with spices and herbs instead of salt and look for low-sodium packaged foods.
- ◆ Add sliced fruits and vegetable to your meals and snacks. Look for pre-sliced fruits and vegetables on sale if slicing and chopping is a challenge.
- ◆ Ask your doctor to suggest other options if the medications you take affect your appetite or change your desire to eat.

Did you know?

- ◆ Individuals age 60 and over who qualify for congregate and home-delivered meals have the option to contribute a donation to the cost of their meal. You don't have to be 60+ years to eat at a meal site as long as you pay the full cost of your meal.
- ◆ The Nutrition Program is funded by Federal, State and Local dollars. Donations are encouraged to help meal providers keep their programs open for those who are in need of a meal.
- ◆ In 2018, more than 1.2 million meals were provided in South Dakota.
