Preadmission Screening Resident Review (PASRR) Supporting Documentation Contacts

Within 10 days of a PASRR exemption expiring, or a short-term Level II PASRR expiring, nursing facilities are responsible for submitting supporting documentation to request a PASRR review. The appropriate contact for receipt of supporting documentation for PASRR review requests depends upon the type of exemption or PASRR that is due to expire. Please reference the table below to determine who should receive the supporting documentation. As a reminder, a completed Level II Preadmission Screening and Resident Review (PASRR) Form should accompany all PASRR review requests.

<table>
<thead>
<tr>
<th>Type Due to Expire</th>
<th>Contact</th>
</tr>
