MEMORANDUM

DATE: May 20, 2021

TO: All LTSS Providers Billing in Therap

FROM: Yvette Thomas, Director, Division of Long-Term Services & Supports'
Department of Human Services (DHS)

SUBJECT: Therap Update: ICD-10 Codes

Therap has updated their Billing for LTSS users in South Dakota on 04/18/2021. This update was implemented to ensure claims are not denied due to invalid ICD-10 codes and to help prevent further billing errors. The full Therap release notes may be accessed here: https://help.therapservices.net/app/answers/detail/a_id/4330/#TherapReleaseNote2021.1.2.Billing-SDLTSS

When acknowledging a Therap Service Auth, providers must enter a valid ICD-10 code. Providers may obtain the ICD-10 diagnosis code utilizing one of the following methods:

1. Contact the diagnosing physician for an appropriate ICD-10 diagnosis code.
2. Continue to utilize an ICD-10 diagnosis code that was previously provided.
3. Utilize a generic ICD-10 code from the table below. These ICD-10 codes in the table below may be applicable to the services that are being rendered. This is not an exhaustive list and should not be interpreted as the only codes available for Providers to bill.

To enter an ICD-10 code, Providers will need to type the first 3 characters of the diagnosis code, then a decimal, then the remaining characters of the ICD-10 code. Once the code is entered, a drop-down list will appear. Providers will need to select the drop-down field with the appropriate code and diagnosis description.
