

Assistive Technology (AT) - Any assistive technology device, that is, any item, piece of equipment or product system that is used to increase, maintain or improve functional capabilities of individuals with disabilities and any assistive technology services that assists an individual with a disability in the selection, acquisition or use of an assistive technology device. The service is the time the IL Specialist takes to discuss AT options, possibly refer to Dakotalink for an AT assessment, time taken to research AT devices for an IL client, and HMAD request to DRS. Purchase of devices are based upon economic need. AT services are not based upon economic need.
